Palazzo, Francesco Carlo.
THE SUPPOSED TAUTOMERISM OF SULFUROUS
ACID (PRELIMINARY NOTE). [1963] 13p 8 refs
Order from SLA \$1.60 TT-64-10501

Trans. of Gazzetta Chimica Italiana, 1962, v. 92,
no. 11, p. 1189-1197. (Abstract available)

DESCRIPTORS: *Sulfur compounds, Dioxides, Inorganic
acids, Sulfites, *Molecular isomerism,
*Chemical bonds.

Taking under examination the old question of the struc-
ture of alkaline sulfites, already simply discussed fifty
years ago, and taking into account new facts not consid-
ered at that time (electronic theory of valency, recent
advances of organic chemistry with regard to tautom-
erism), the author comes to the conclusion that the
"tautomerism" presumed for free sulfurous acid cannot
by any means be considered as proven. (Author)
